PROMOTE YOUR BUSINESS

## WE UNDERSTAND PRINTING

### PRINTING APPLICATION

We have world-class printing equipment. For plastic cups and containers, we have four 6-color Van Dam UV offset printing machines.

### PRINTING SERVICE

We manage all design and print services in-house. We can recreate or modify your existing artwork or our designers can help you develop an entirely new brand concept. We can even create mock-ups so that you can see what the actual product will look like once artwork is finalized.

# 5 STEPS

**SIMPLE & EASY!**

# WE'RE HERE TO HELP

WHATEVER YOUR PRINTING NEEDS

01

Choose the cup or container size(s) you need. We offer a wide range of sizes on PET drink cups, PLA drink cups, and PET round deli containers.

02

Choose up to 6-colors for your plastic cups / containers, and up to 4-colors for your customized PLA drink cups.

03

Send us your artwork as an AI (Adobe Illustrator), EPS (Encapsulated PostScript) or PDF file. If electronic artwork is not available, send a sample of your cup or container and we will recreate the artwork by hand.

04

Once you have perfected your design, we will produce a digital file of the artwork for you to review and approve. We can also create a mock-up, if needed, for a minimal charge.

05

The printing process begins once the digital artwork file and/or mock-up has been approved and purchase order has been received. Custom printed products will be produced and delivered within our stated normal lead times.

**Our minimum order quantity for most custom prints is 50,000 pieces per sku.**
